# A Weak, Aching Back Caused Her Much Misery

COULD NOT WORK AND HAD NO  
AMBITION FOR ANYTHING.

Those who have never been troubled with kidney trouble do not know the suffering and misery which those afflicted undergo.

Weak, lame or aching back comes from the kidneys, and when the kidneys are out of order the whole system becomes deranged.

Douglas' Kidney Pills are a specific for all kidney troubles.

Mrs. W. R. Hodge, Fielding, Sask., writes: "A few lines lately recounting Dougl's Kidney Pills. For this last year I have been troubled very much with aching back, and a weak, aching back which caused me much misery, for I could not work and had no ambition for anything. My kidneys were very badly out of order, and kept me from sleeping at night. I tried many kinds of pills and remedies but it seemed almost in vain. I began to give up in despair, of ever being well and strong again, when a kind neighbor advised me to try Douglas' Kidney Pills which I did, and an thankful for the relief I obtained from them, for now I am never in trouble with aching back, or sick headaches. I will always say Douglas' Kidney Pills for name and can highly recommend them to any sufferer."

Price 40 cents per box, or 3 boxes for \$1.15. At all dealers, or mail order on receipt of price by The T. M. Hodge Co., Limited, Toronto, Ont. When ordering state specifically "Dougl's."

MRS. KELLOGG DURAND, authoress, who is now suing for divorce from her husband on the ground that he has the "wandering eye."

# CARLOS OF THE CATTLE KILLED

JERSEYS BOUND FOR ALBERTA  
DEMONSTRATION FARMS STOP  
IN A TRAIN WRECK

News was received by the department of agriculture yesterday of the loss of a shipment of Jersey cattle intended for the Alberta demonstration farms, in a wreck on the Canadian Pacific railway a couple of weeks ago. A man of the name of Gisholm, employed by Bull and Sons of Brampton, Ont., who sold the Jerseys to the government to look after the cattle, was killed in the train wreck.

At what point along the line, or under what circumstances the wreck occurred, the department have not yet been able to determine. They received a wire from Bull and Sons yesterday stating the bare facts of the case, but not stating whether the wreck occurred in the east or while the stock train was passing through the prairie provinces. Further information will be on hand in the course of a few days.

The wreck, says, it is believed, escaped unharmed. The other fifteen in the car, most of which were for the government farms, were killed outright.

# DUKE OF CONNAUGHT TO OPEN DOMINION HOUSE TOMORROW

Continued from Page One.

His Highness the Governor General and the Duchess of Connaught will hold their first drawing room this function, as well as the opening itself, always attracts society leaders and debutantes from many outside points.

The opening ceremony promises to be of exceptional brilliancy. There is not only a fine outside point, but the opening of a new government, but also the great social call attributable to the Duchess of Connaught.

The Duchess of Connaught, who is expected to be present, will be definitely known. It is the general belief, however, that the session will be brief and rather uninteresting.

The prevailing idea is that its very contentious legislation or legislation of a contentious character will be brought down at this time, but that, instead, attention will be devoted mainly to passing the appropriation measures necessary for the remainder of the fiscal year.

Parliament will probably be prorogued before Christmas. It is expected that it will meet again in February or March, when the new government will be ready with its important measures of legislation.

Among these will be requests to establish a tariff commission, to create a western division of the Federal railway commission, and to provide for government ownership and operation of terminal elevators.

That the tariff will be taken out of politics and made the subject of a general debate is generally accepted as being a leading plank in Mr. Borden's platform.

He made this proposal as an effort to appeal that the Liberals made to the farmers on the ground of lower tariff.

The same proposal has been informed by the Canadian Manufacturers' Association as a means of taking the tariff out of politics.

# SALVATION ARMY CONGRESS.

Winnipeg, Man., Nov. 15.—The annual congress of the Salvation Army for Western Canada opened in this city today. Officers of the organization are in attendance from Calgary, Medicine Hat, Edmonton, Moose Jaw, Saskatoon, Brandon and a number of other points.

# NATIONAL GRANGE IN SESSION.

Columbus, O., Nov. 15.—The National Grange, the largest and most influential organization of farmers in America, met for its annual session in Columbus today with delegates present from every state. Additional interest is given this year by the fact that the probability that its attention will be called to the charges made that the organization is controlled by certain powerful factors whose activity in national politics has militated against the success of the national Grange and minimized its influence.

# CHANCE FOR BOY MURDERER.

Halifax, N. S., Nov. 15.—Instead of being executed today in accordance with the original sentence imposed upon him, Harry Wilson, the boy murderer in jail at Digby, has been granted a reprieve of one month, with good prospects that he will escape the gallows altogether. Today the full bench convened in this city to take up his case, which has attracted wide attention throughout eastern Canada. The crime of which Wilson was convicted was the murder of his brother, George Wilson. The tragedy is alleged to have resulted from a quarrel when both the brothers were intoxicated.

# RAYNE ROOSEVELT WEDDING.

Washington, D. C., Nov. 15.—To the long list of notable weddings celebrated in the fashionable St. Thomas' church, in Du Point Circle, there was added this afternoon, when Mrs. Roosevelt, daughter of Mr. and Mrs. Robert Roosevelt, and cousin of former President Roosevelt, became the bride of Dr. J. Brockbridge Rayne, a prominent physician of this city. A ceremony of the nature was followed by a large reception at the residence on Massachusetts avenue, recently built by the bride's father.

# WILL BE PROMOTED.

(Western Associated Press.) Vancouver, B. C., Nov. 15.—It is rumored in railway circles here that Dr. L. A. Dickinson, vice-president of the United Pass and Ticket Road, since May, will be appointed president in place of Samuel H. Graves, who died last week at Ottawa.

MRS. MABEL ATHERTON, prominent in London social life, who received one of the most serious injuries when she was her sister-in-law for slander.

# TRANS-MISSISSIPPI COMMERCIAL CONGRESS

Being Held in Kansas City Today—  
Large Number of Important Topics  
Are Up for Consideration

(Special to The Capital)

Kansas City, Mo., Nov. 12.—Nearly every state in the Union was represented in the vast audience that filled convention hall today at the opening of the annual meeting of the Trans-Mississippi Commercial Congress.

The attendance was the most representative in the history of the congress, which was organized more than twenty years ago to aid in the commercial development of the west. Many of the delegates today were headed by the governors of their respective states.

WANTED FOR 1912—  
CANDIDATES WITH IDEAS

With the day for the municipal elections approaching it must be apparent to all interested in municipal affairs that the greatest need of Edmonton and of the Greater Edmonton of the future is the presence in municipal politics of a few candidates imbued with the enthusiasm for some modern ideas in municipal management, such as are being presented to the residents of larger eastern cities, and with the necessary backbone to get out and fight for these ideas and to finally put them into effect.

Here in Edmonton where, with amalgamation, we have an excellent opportunity to get a new and modern charter the idea has scarcely been referred to at all and apparently has been scarcely considered. The amalgamation committee, from which one would naturally expect suggestions, never referred to the necessity of a modern charter, but seemed to be obsessed with the idea that the routing of the street railway through certain subdivisions in Strathcona was a matter of over-shadowing importance. To the average ratepayer the purely superficial question of what certain streets in Strathcona the street railway follows is only the most distant importance and that such a question should be the hinge consideration for or against amalgamation is too outrageous for words. Had the amalgamation committee discarded such details from its considerations or relegated this question entirely to the attention of the street railway superintendent, in whose hands it rightfully belongs, and had they given the attention which the question deserves of how the ratepayers of the amalgamated city were to retain in their own hands the control of the street railway system which they have bought and paid for, they would have been doing something really worth while.

Undoubtedly they had good ground on which to work. Edmonton's system, it must be admitted, has proven altogether inadequate to the necessities. The test of last summer, when the council and the commissioners deadlocked, indicated very clearly that there is something seriously lacking. In fact, the very circumstance that such a deadlock could exist is self-evident proof that the system is lacking.

Edmonton has millions of dollars invested in municipal utilities. Edmonton owns in franchise rights alone an asset which has cost the city not a cent, but which in private hands would be capitalized for millions and to pay very handsome dividends. It is generally conceded that Edmontonians do not wish to part with these utilities or these franchises, but if they are to be preserved to the city some new system of responsibility to the ratepayers must be found. Under the present helter-skelter system, or lack of system, the end is inevitable. The city will almost certainly lose the franchises and possibly the money invested in the utilities.

If, for instance, the water works belonged to a stock company and the works failed to get water to the company's customers, the very first thing that the stock-holder would do would be to go to the superintendent in charge and tell him that unless he got water he would lose his job. But with the water works in the hands of the city the ratepayer, who is in fact as well as in theory, the stock-holder, cannot do anything of the kind, because under the Edmonton charter there is nothing to show just who is the one particular certain man upon whom the responsibility can be placed. The candidate who will show how this absurdity can be rectified is the candidate who will get the public hearing in the election which is to come.

This much at least must be apparent that in municipal elections in the past the ratepayers have not heard very much of what the sport writer calls "the real dose." Elections have hinged on questions of personality and the settlement of minor details which were purely administrative and never a matter of policy at all. The candidate who could take the platform and intelligently discuss systems of municipal government has not yet appeared. His appearance in the municipal arena would be hailed with delight. Win or lose, he would do the city a great service.

SOMETHING MORE THAN  
AN ATTEMPT TO GET JUSTICE

The following little paragraph taken from the comment column of the Toronto Globe is a fair sample of how the proceedings and procedure in the famous Los Angeles trial presents itself to Canadian editorial writers:

A juror has been disgruntled for the Los Angeles dynamiting trial because he was in the habit of reading Socialist newspapers. An ideal juror must be one who cannot read.

The absurdity of the proceedings in Los Angeles must present itself to the fair minded reader at once. If the MacNamaras are as guilty as Detective Burns in his magazine articles and General Otis in his editorial columns allege they are, it is obvious that there should be no difficulty about selecting a jury—that almost any jury on earth would convict them out of hand. The fact that the prosecution challenged hundreds of men in order to find a jury on which they can rely leaves room for the suspicion that there is something more than an ordinary attempt to get justice. At least newspapers such as the Globe, so far away from the scene of the trial, are quite within reason when they decide that this is the case.

Mr. Bennett moves the reply to the speech from the stage and a four-minute seconds, the public can take their own time in the Bennett style of flag-waving and the kind of flag tramping. But here conservative principles and the geography is right.

THEORY AND PRACTICE  
IN RAILWAY COMPETITION

The theory that railway competition guarantees the public better service receives a rude jolt through one particular circumstance which Edmonton finds itself up against at the present time. The circumstance is that Edmonton is not getting as fast a service to Winnipeg by five hours as it might get were it not for railway competition.

When the Dominion government guaranteed the Grand Trunk Pacific railway for fabulous amounts it did so on the understanding that in the construction of the G. T. P. the desideratum was to be a road of such superior excellence as would permit the people of the west to enjoy the best railway service on earth. In carrying out of this policy, so it was given out, the cost of the road was not to be allowed to stand in the way of excellence of construction.

The road has been built, and it must be acknowledged that it is about the finest piece of railway construction ever attempted on the North American continent. The gradients are the minimum, the ballasting is superb and the steel the heaviest that was ever laid on a new road anywhere north or south of the line. Actual tests have demonstrated to a certainty that trains can be run on the G. T. P. as fast as any locomotive was ever built to run, or faster than any engineer ever wanted to drive his engine.

Yet the time between Edmonton and Winnipeg is still no better than twenty-nine hours. Without any risk or inconvenience whatever it might be twenty-two, and as a matter of fact it once was twenty-five.

Then why are Edmontonians required to lose this five hours going and coming?

Competition! The Grand Trunk Pacific is using the Canadian Northern terminals in Edmonton and is using joint terminals in Winnipeg which the Canadian Northern claims to own.

The Canadian Northern is operating a longer road to Winnipeg over an inferior roadbed. If the G. T. P. puts on the twenty-two hour service the Canadian Northern cannot compete and would enjoy the privilege of operating empty coaches, except for local traffic, for eight hundred miles.

So the Canadian Northern says to the G. T. P.: "You put on your twenty-two hour service, got darn yep, and we'll kick you out of our yards."

In theory, competition in railroading should protect the public. In actual practice all the public gets out of competition is the opportunity to maintain two roads where one could do the work better.

JUST PARAGRAPHS

Frank Oliver says there is no more likelihood of the Alberta cabinet being enlarged than there is of him going into the Alberta government. Mr. Sifton also admits that there will be no reorganization. From which it may be inferred that there is a unanimous sentiment against bye-elections in government circles.

The officers who ran the Niobe on the rocks have to answer for their poor seamanship, which proves that all danger has not yet been eliminated from the war game.

That settlement which "Bob" Rogers gave the coal strike seems to have been nipped by the cold spell.

EDMONTON

General Facts for Those Paying the Capital City a Visit

Street railway 23 miles, cost \$380,500.

Water mains 54 1/2 miles, together with plant cost \$903,791. Water supply limited only by capacity of Saskatchewan river. Light and power plant, 4700 kw., cost \$402,000.

Edmonton is situated on three trans-continental railways, has 12 railroad outlets and 9 proposed outlets. American roads coming from south. Individual and undisputed territory greatest of any city on American continent—830 miles west of Winnipeg. 650 miles east of Vancouver.

Coal, ore, oil, natural gas, minerals in close proximity.

Low rate taxation 13.7 mills; \$500,000 new wealth realized by tributary area this year.

Over a hundred wholesale and commission houses in the city.

Fourteen banks and three loan companies.

Municipally owned industrial sites for lease with option of purchase.

BUILDING GROWTH

1909, \$2,128,166; 1910, \$2,159,106; 1911 (for seven months), \$2,050,000. Entire year estimated, \$4,000,000.

POPULATION

1905, 9,200; 1906, 14,000; 1907, 18,000; 1908, 20,000; 1909, 23,000; 1910, 25,000; 1911, 28,000.

FORECAST

At the present rate of development and growth Edmonton will have a population of 100,000 in 1915 and an assessed valuation of \$130,000,000. Its street railway mileage will be 90 miles; paved streets and boulevards, 70 miles; 200 miles of sewers; 250 miles of water mains. Edmonton is growing faster than it can be polished, it is young and rough, but three years will witness a most remarkable development.

Establish yourself in Edmonton now, get busy, grow with the city and make your fortune.

# Strathcona Council Is Scored For Blocking Hospital Work

**Alderman Calder Considers City Should Not Spend \$175,000 on Hospital—City Employee Sued for Slander—Council Hold a Lengthy Session**

Strathcona, Nov. 15.—Chairman Vogel of the hospital committee created a riotous scene last night when he accused the members for their action of last week which turned down the report of the committee and refused a step to place the whole question in the hands of a special board. Alderman Vogel introduced a retrospective report on the work of the committee during the year by a most decided attack on certain members of the council. "In the first place," remarked Mr. Vogel on rising, "I want to thank the council for the fact that they gave the hospital committee last Thursday night. I have a few facts here that will prove that the committee was not asleep during the year. We worked hard on the question and were disappointed with the result of the council that the new building could not be completed this winter. Alderman Tipson says he is disgusted with the whole matter but he should remember that some things cannot be rushed. This such matter is that of the incinerator which has been under way for four months." Alderman Vogel said that the committee had been working since they took hold of the work last spring, showing that they had pushed the business of the hospital as far as possible under many adverse circumstances. "This hospital board was constituted several months ago so why wasn't the matter placed in their hands at mid-season instead of just at the last minute after the committee had everything in shape for clear sailing. I consider the council's action simply a slap in the face to the hospital committee," Alderman Hankin was one of those who did not understand why he objects to it now.

**Did Not Attend Committee.** Alderman Hankin defended his attitude in respect to advocating a better site for the hospital by asserting that he had not criticised the work of the committee but merely questioned the advisability of placing the new building opposite a lane instead of a street. He had at one time ordered the site first selected but changed the privilege of choosing the land when he felt that the interest of the city was at stake. He emphatically stated that he intended no disrespect to the committee and certainly made no personal reference to Alderman Vogel.

Alderman Fulton acknowledged his assertion that he was disgusted with the progress made at securing a hospital. He would not take back anything he said in reference to the subject. However he was sorry that Alderman Vogel looked upon the criticism as a personal attack because he never included his remarks to reflect upon the committee. He thought they had perhaps done all they could under the circumstances this year. He gave a long account of the action for a hospital during the past four years and explained why the building had been delayed through the action of the council. "I don't blame the committee this year for it is now up to them to have the building built. I realize that these other parties in the transaction can't be blamed. I am sure, and I say so, that there was no possibility of even settling the basement of the building in the first place. It is the wisest step for this council to take was the placing of the whole matter in the hands of a special board."

**Objects to \$175,000 Building.** Alderman Calder, chairman of the hospital committee, said he was not a screaming abolitionist to a hospital being built which promised to cost as

charge after amalgamation. The year's contract and salary increase were unanimously agreed to.

This meeting was another which required the suspension of the eleven o'clock rule. A wide range of business was covered, with a large proportion of a routine character. All the attention was present with the exception of Alderman Loughlin.

Alderman Calder had a request in for action additional street lamps in Ward Four. These additional would require but new poles. In connection with this subject Alderman Hankin reported that he was taking steps to have an improved system of lighting installed. This would mean the changing of any of the existing line however, he will have a complete report ready in a short time.

Scholar Hansen reported that to reference by law is necessary for the changing of road signs in Strathcona. Alderman McLean had a very complete report on the amount of interest by the city last during the present season.

Upon request of the assessor several years was granted to reduce the C.P.R. \$1042.09 due from the 1911 tax for property included in the company's list of what was the bridge.

**Several Bylaws.**

In addition to the civil election by-law three other by-laws were given approval. Alderman Hansen gave a plan of subdivision in University place. Another saving authority for the closing of a railway in Strathcona was given in three readins. The bylaw which will transfer to the M. & K. company a portion of second street east was read twice and laid on the table.

The special committee reported that they considered the city not liable for the value of a horse belonging to Mr. H. H. H. which was injured by falling over an obstruction, alone Saskatchewan avenue. Adopted.

The recommendation of a special committee the hospital 100 company were given authority to erect a storage tank near their present warehouse.

The application of the local Education for rebate of taxes was referred to the finance committee.

The city and school board will deal with the request of Wilson and Herald for payment of \$200 for work in connection with the power house alterations.

**City Employee Sued.**

On behalf of the defendant in the action Mr. J. M. Mills requested the city to support Stuart Martin in the suit for slander to be taken against him by the Mayor's Commission. Several slanderous statements are alleged to have been made against the company while the defendant was in the position of the city as inspector of the water works extensive hole constructed by the plaintiff. Mr. Mills denied the guilt of the defendant and thought the city should stand back of Mr. Martin in the action. He mentioned one case in the article which he considered, referred upon the good issue of the council.

There was where the council was referred to as having assisted in making the position of the company by statements which were allowed to be published in the press. In answer to the mayor Mr. Mills said that the first available date for the hearing of the case in the superior court would be the second Tuesday in February. "It is likely that the case will be brought on at once as possible or use many of his good qualities." Mayor Davies indicated that the case will be referred to the council referred to as unqualified. The matter was referred to the water and sewer committee for their report.

**Accusations were heavy.** totaling \$12,842.48. Of this amount \$10,000 was for the purchase of the land to be used for the hospital, for paving work during the season. Satisfactory business was to be had from the company guaranteeing the completion of the contract next spring.

**A Valuable Superintendent.** Intimation of the resignation of power-house superintendent Watson was given by Alderman Hankin who reported however that he had secured promise from Mr. Watson to remain with the city if even a salary of \$125 per year and a salary of \$125 per month after February 28. The person salary is \$100 per month. Alderman Richards explained that a strong effort was being made by the fire department which when Mr. Watson was recently employed, to get him to return and the fear that the superintendent might effect his position here after he seriously considered resigning.

Several other members of the committee expressed their appreciation of Mr. Watson as a capable engineer and in view of the extensive alterations which the plant is to be made it was decided that the services of the superintendent must be retained. "He is a first class engineer," Alderman Tipson said, "and it is the kind of men we need. It is the kind of men the greater city will need." There was little fear of his not being kept in the city.

**DR. CHARLES W. ELIOT**, president emeritus of Harvard who, with wife, sailed from New York recently for a trip around the world.

## NEWS OF THE CITY

A confirmation service will be held at Emmanuel church, Bellmore, on Sunday, November 19, at 2:30 o'clock by the Rev. Bishop of Calgary.

Mr. Carmichael, who has been several years in the employ of the Hudson's Bay has resigned his position to take a similar one with J. B. Mercer.

This evening at 8 o'clock in Erskine Presbyterian church, a lecture, "The House of the Future," was delivered by Rev. W. D. Hend, superintendent of Presbyterian missions.

Under the auspices of the Mutual Improvement association, a lecture on "China," illustrated by lantern views will be given in Indianist hall, on Wednesday evening, at 8 o'clock by Mrs. Evers.

Suffering from a broken leg, an injury which he sustained while working in the Cardiff mines, Lars Gidmark, a Swede, was brought to the Misericordia hospital, on Wednesday afternoon.

Inspector Worsley at the mounted police barracks yesterday afternoon, searched John Scott of North Edmonton, to inform about a pair of Sarsaparilla cheques, for theft.

The regular weekly meeting of the Edmonton lodge, I.O.O.F., was held at the Oddfellows hall, in the Norwood block evening. Arrangements for the entertainment programme for the winter season were discussed during the course of the evening.

With a view of securing a certain insurance company that does not possess a Dominion charter, from the right to do business in Edmonton, a delegation of members of insurance underwriters in the city, called on Premier Stinson on Monday.

The formation of a provincial insurance department.

Mrs. Walter Davidson, formerly Miss May Davidson, who received for the first time since her marriage, on Friday, the 11th inst., 125 South street and afterwards on the 11th inst., Friday the 11th inst., Mrs. J. L. Davidson of Charlottetown, P. E. I., will receive with

Business Men's luncheon, from 12 to 2 p.m., Thursday, Nov. 16, at the Exchange Mart.

The Index of Robertson Presbyterian church, a safe of useful and fancy articles, will be on display at the church during the afternoon, Orchestra in attendance.

Only Crews, Next Press call will be used by the provincial government in all their buildings north of Panama, with a view of avoiding a shortage of the letter 'E' in the word 'press' in this word already has been delivered to the government.

A detective has been reached by the brotherhood of Carpenters, to take a half holiday every Saturday afternoon, one week, the effect of the Saturday of this week for the first time. The scale of wages for members of the union will remain the same.

According to notice received from the city, the board of health of the various city departments, all bills must be closed for the year by October 31. The effect of the present month, so that the annual financial statement may be in shape for the board of health to present to the meeting which is held just prior to the civic election.

The Rev. W. O. Boyd will deliver a lecture on "The Holy Land," illustrated by lantern slides, on Thursday evening, at 8 o'clock in St. Paul's church, corner of Kensington and Short street. A silver collection will be taken at the end of the choir.

The first department responded to three calls to small fires, yesterday afternoon. All were extinguished before any damage was done. The first call came at 2:35 o'clock, when the fire started at a place at the house of Mr. Coleman, 33 River street. At 2:40 a defective chimney in the house of Mrs. Cole, at 125 South street, was reported. At 2:42 o'clock, another fire started at the house of Mrs. Cole, at 125 South street. At 2:42 o'clock, another fire started at the house of Mrs. Cole, at 125 South street.
